## International Nurses Day

International Nurses Day was established by the International Council of Nurses in 1965 to celebrate the important role nurses play in our society. In 1974, the 12<sup>th</sup> May was chosen as the date to celebrate the day as it was the birthday of the founder of modern nursing, Florence Nightingale. Following on from previous years, the overarching theme for International Nurses Day is Nurses: A Voice to Lead. The sub-theme for 2021 is A Vision for Future Healthcare.

[Madison Day Surgery](#) is committed to upholding a high standard of care, management and guidance to all of its diverse nursing staff and to remain as one of the premiere destinations for Ophthalmic and Vasectomy procedures.

[Madison Day Surgery](#) celebrated the occasion with our nursing team and would like to thank all our Nurses for their dedication, care, commitment and for all their on-going hard work. [Click here](#) to read more.

---

## Administration Professionals Day

Administrative Professionals Day was celebrated on the 7<sup>th</sup> May to mark an occasion that recognises the very important role played by the administrative professionals in today's business world.

Our administrative team is vital to the smooth running all of our patient's surgeries, from liaising between patients, surgeon rooms, clinical teams, health funds and carers to being the first face and point of contact on surgery day. Our administration team prides itself on the care and detail given to each patient to ensure their day runs as smoothly as possible.

[Madison Day Surgery](#) would like to thank all our administrative staff for their efficiency, exceptional customer service and contributions to the vital and

integral running of the facility. [Click here](#) to read more.

## Welcome New Graduate Nurse

[Madison Day Surgery](#) (MDS) would like to welcome Raji Multani to the 2021 New Graduate Program.

The New Graduate Ophthalmic Registered Nurse Program is modelled on the requirements of the prestigious American Society of Ophthalmic Registered Nurses (ASORN) Core Curriculum in Ophthalmic Nursing, including certification exam for Ophthalmic Registered Nurses through The National

Certifying Board for Ophthalmic Registered Nurses. This program includes intensive, specialised training in ophthalmic patient care, from the time in the consultation room through to the operating theatres.

At [Madison Day Surgery](#), we pride ourselves on our commitment to provide the highest caliber of education and support to the nursing field within a specialised perioperative environment, along with finding and cultivating the best new talent.

We wish Raji all the best for her studies and the year ahead. [Click here](#) to read more.

## MDS Now Offering Vasectomies

In 2020, [Madison Day Surgery](#) proudly partnered with [Marie Stopes Australia](#), the largest, independently accredited vasectomy provider helping men take full control of their reproductive choices.

Vasectomy is the only permanent method of contraception for men and has a failure rate significantly lower than 0.1%. Vasectomy procedures are also one of the most commonly performed surgical procedures in Australia, with over 23,000 men getting one each year.

A vasectomy at [Madison Day Surgery](#) with [Marie Stopes Australia](#) offers you:  
**No Gap fees** – don't pay thousands of dollars! Depending on your level of private hospital insurance, if you are covered for the vasectomy procedure you will only need to pay your excess, with the hospital fee billed as No Gap.

**Choice** – you have the option of IV sedation or local anaesthetic

**Quality** – your vasectomy will be performed by [specialists](#), who generally perform over 1000 vasectomies each year and use the 'gold standard' no scalpel open ended technique

**Comfort** - our painless anaesthetic delivery technique is the benchmark in vasectomy procedures. The technique has been found to reduce sensations of pain caused by the local anaesthetic needle for most patients – with [79% reporting experiencing less pain than expected or no pain at all](#).

**Convenience** – Typically procedures take less than 30 minutes, and depending on the type of work you do, you should be able to return to the office the day after! You can also relax knowing you have 24 hour phone access to a nurse if you need it.

For more information about our vasectomy service visit [vasectomy.org.au](http://vasectomy.org.au) or call **1300 594 815** to book your appointment today! [Click here](#) to read more.
